The Catalog Planning Checklist

Catalog production is difficult, complex, and potentially cost-prohibitive. Whether you are planning a new catalog or improving an existing workflow, the following checklist will help you plan and prioritize your next move to improve your catalog workflow.

(Please note: You are welcome to contact Comosoft to ask any questions regarding our LAGO product, or our integration services for catalog publishers. However, this planning document is intended for general use—with or without Comosoft products and services.)

| GENERAL PLANNING | CURRENT | PROJECTED |
|---|---------|-----------|
| Print Circulation (all versions) | | |
| Target Page Count (per catalog) | | |
| Average Number of Products Per Paged | | |
| Number of Regional Versions | | |
| Number of Language Versions | | |
| Number of Online Versions (print facsimile) | | |
| Number of Online Versions (responsive web/mobile) | | |

BRAND CONTINUITY & DESIGN

| How well is the DAM system integrated with the design/production environment? | |
|--|--|
| ☐ Very well (i.e., easy to find assets, drag-and-drop placement, asset version tracking, etc.) | |
| ☐ Moderately well (tolerable difficulty when using DAM system in catalog production) | |
| □ Not well (DAM use creates unacceptable costs/effort) □ N/A □ Don't know | |
| How do you create and maintain brand identity across multiple catalog issues or versions? (Check all that apply.) | |
| ☐ Very well (i.e., easy to find assets, drag-and-drop placement, asset version tracking, etc.) | |
| ☐ Moderately well (tolerable difficulty when using DAM system in catalog production) | |
| □ Not well (DAM use creates unacceptable costs/effort) □ N/A □ Don't know | |
| How do you create and maintain design parity between printed and digital versions of a catalog? (Check all that apply.) | |
| ☐ Digital catalog is a facsimile of the printed version | |
| ☐ Digital catalog uses XML and CSS to keep as close as possible to the print brand | |
| ☐ Print and digital versions are based on the same PIM or other SKU data, and the data are formatted for multiple output channels | |
| □ Other: | |
| □ N/A | |
| □ Don't know | |
| | |
| SUCCESS/RESULTS TRACKING | |
| How are changes in sales volume correlated to <u>printed</u> catalog featuring of individual SKUs or general product categories? (Check all that apply.) | |
| ☐ Special offer codes or other identifiers on the printed page | |
| ☐ Customer satisfaction or other surveys | |
| ☐ Anecdotal or other informal feedback | |
| □ Other: | |
| □ N/A (There is currently no way to correlate printed catalog activity and sales results.) | |
| ☐ Don't know | |

SUCCESS/RESULTS TRACKING (CONT'D)

| w are changes in sales volume correlated to <u>online</u> catalog featuring of individual SKUs or neral product categories? (Check all that apply.) |
|---|
| Trackable URLs |
| Customer satisfaction or other surveys |
| Anecdotal or other informal feedback |
| Other: |
| N/A (There is currently no way to correlate online catalog activity and sales results.) |
| Don't know |
